

- We are participating in Career Connections! Career Connections, provided by Tri-County Educational Service Center, works in our district to ensure our students understand that what they are learning in the classroom is relevant to future Career Paths. Throughout the school year, students will participate in a number of Career Exploration activities. These will include field trips, guest speakers from local businesses, career interest inventories, and much more!

This programming will give each student and their family information about:

- Career interests
 - Learning style
 - Career-based financial lifestyle planning
 - Educational options
 - College and Career readiness plans
 - And much more!
- Sign up for our Newsletter! Career Connections offers a monthly career path newsletter. These newsletters focus on a different career path each month and include success stories from local students and educators, career exploration activities, spotlights on local businesses, job outlook information, higher education options and more.
 - Be sure to sign up to receive these newsletters by going here: <http://eepurl.com/cd4tYf>
 - Are you interested in having meaningful conversations about work ethic and career development with your student? Sign up for Career Connections text messages to receive tips and weekly conversation starters! You can sign up one of two ways:
 1. Go to rmd.at/escctips
 2. Text the message @escctips to the phone number 81010
 - For more information regarding Career Connections, please visit:
